AULENTI

Sunón

What matters is not limited to lines and surfaces. Office furniture should be like those landmark buildings, integrating technology innovation and fashion aesthetics, and standing out in a unique style. I hope Aulenti could be the best practice of this.

Giuseppe Jono

Space of Beauty and Strength

What we do is to deliver technology in a more poetic way, that is, to realize organic interaction between technology and design, which requires technological innovation, quality details, humanized design and exquisite upholstery.

Aulenti is the product of technology expressed through design.

The elegant shape shows our constant pursuit of beauty. You can experience how Aulenti renders "strength and beauty" in a unique way from any angle or detail, including the dynamic legs shape, neat lines, smooth curve face and the application of side desk light.

We hope that Aulenti, the combination of strength and beauty, and firmness and softness, will become a model for modern office space.

Steven Zhang, Product Director of Sunon

Break the Boundary, Empower the Beauty

If we say "architecture revives a city", then office desks should almost determine the office environment. The powerful front contour, and those diamond-like splendid curves are all inspired by the dual edged infinite display of Galaxy S8. The concise and bright shape of crossed desk legs demonstrate a perfect combination of strength and beauty. Special formaldehyde-free water-based dual varnishing technology helps to create a greener and friendlier office atmosphere.

In the city, at the center of CBD, when night falls and lights on,
Aulenti is always here for you and your dream.

Innovation, for the Eyes that Perceive Beauty

The cable-stayed design of the framework is the essence of Aulenti's "strength and beauty". It is like the immense whale bone, stable and full of dynamic sense. It is like the antenna of City of Arts and Sciences in Valencia, perfectly integrating art, technology, beauty and strength.

Side Cabinets that are Also Highlights

The octagon shape makes it both elegant and lively. The extension of cable-stayed design matches perfectly with the main desk. Large-capacity drawer makes the whole space clean and organized. Every line and every detail elaborates the conciseness and luxury of Aulenti.

1. Convenient USB Charging

The panel is equipped with USB charging function. Aulenti cares about you in every detail.

2. For Organized Storage, for Easy Classification.

Wooden meteor gray storage drawer makes it easier to sort out small items.

3. The Light Belt Designed to Build Up the Atmosphere

A stylish light belt is installed inside the cabinet's display area to shed soft lights through acrylic board.

Back Cabinets with Geometric Beauty

The natural wood grain and the matte leather make the cabinet classic and exquisite, and make the whole office trendy and unique.

Cabinets composed of geometric blocks which represent minimalist spirit practice the functions of display and collection to the fullest.

Techniques of grooving and binding the edge and corner overturn the flat opening mode and allow the user to switch the cabinet between storage and display area at will.

Seats that are Both Comfort and Elegant

The armrests upholstered with new type of binding technology and the backrest upholstered with new type of embedding technology endow the seat with a flow of light.

The beauty of exquisite details together with comfortable sitting experience represents the perfect integration of "strength and beauty", and brings the user unprecedented enjoyment.

Graceful and Exquisite Sofa

Aulenti introduces Italian-type elegance into sofa design.

The crease of Nappa looks classic and graceful, and feels plump and elastic by touching.

The fine and firm texture and the dark coffee tone make it elegant, elaborated, and suitable for treating visitors.

All these are the style and quality of Aulenti.

Urban Elite

The octagonal desktop looks infinite with the extension of lines. The wood grain texture outlines a sense of mystery and mildness. The smoothly forged desk legs look powerful but never too aggressive. The meeting space is neat, steady and trendy. It is unique and shows professional demeanor.

Solid Wood Tray Embodies Human-centric Spirit

Solid wood tray breaks the traditional flip design, integrating the function of storage and delight of visual effect. Its grace and elegance adds human-centric significance to your workspace.

5 Power Supply Tracks

Application of modern technologies and humanized configuration help redefine efficiency in workplace. 4 leather-upholstered segments in the middle of the 6.8/8.4m-wide desktop is designed with aluminum alloy frame with each short edge equipped with a track for slideable power plugs. Users seating on four sides of the desk can enjoy convenient power use.

Slideable Power Plugs

The power supply track is designed with a narrow slot only accessible for its matching plugs. Users can insert plugs into any spot of the track, thus implementing more safe and convenient power use.
